**BANK LETTER**

February 25, 1994

Calvary Education Broadcasting, Inc.  
d/b/a KOKS  
Don & Nina Stewart  
P.O. Box 967  
Poplar Bluff, Missouri 63901

Dear Mr. & Mrs. Stewart:

This is to confirm that Peoples Bank of Wayne County will grant your loan request of \$50,000.00 providing all the necessary information and documents are obtained. This loan will also include the balance of loan #12489-02 in the amount of \$18,233.67 for a new loan to be made in the amount of \$68,233.67. The loan will be structured with monthly payments and a term of seven years. The collateral will be a deed of trust on the real estate where KOKS Radio Station is located, a second deed of trust on your home, and all equipment now owned and hereafter acquired of Calvary Education Broadcasting, Inc. d/b/a KOKS.

The information and documents needed to complete our file are as follows: An inspection of the Butler County records revealing that no liens are filed on the equipment, Title Insurance on both pieces of property, and proof of insurance on the KOKS Radio Station property.

Sincerely,

*Angela Thurston*  
Angela Thurston

ENSTAR  
CABLE

February 24, 1994

Nina Stewart  
KOKS  
P.O. Box 967  
Poplar Bluff, Mo. 63902

Dear Stewart,

This letter is in response to your telephone call on February 24, 1994, inquiring if Enstar Cable has had any interference on our cable system from KOKS. When KOKS went on the air we installed a trap in our channel 6 equipment. We have not had any interference that I am aware of from KOKS on our cable system since we installed the trap.

Sincerely Yours,

Daniel B. Wawak  
Regional Manager

**CALVARY EDUCATIONAL BROADCASTING NETWORK, INC.**

**EXHIBIT I**

**AFFIDAVIT OF CONSULTING ENGINEER**

ENGINEERING STATEMENT

The engineering data contained herein have been prepared on behalf of CALVARY EDUCATIONAL BROADCASTING NETWORK, INC., licensee of radio station KOKS(FM) in Poplar Bluff, Missouri.

Operation of KOKS apparently causes blanketing interference to the reception of local and distant FM and television station signals in the homes of people living in the vicinity of the KOKS transmitter site. As a result, the FCC has required KOKS to develop remedial measures to cure the known cases of blanketing interference in the area.

I have reviewed the FM and television filtering proposals (labelled Exhibits A and B) designed by Charlie Lampe, the KOKS contract engineer, and A-1 Electronics, the company responsible for installation of the equipment. It is my opinion that this equipment, if installed properly, should alleviate the blanketing interference problems in all but the most difficult and persistent cases.

I declare, under penalty of perjury, that the foregoing statements are true and correct to the best of my knowledge and belief.

KEVIN T. FISHER
